

DAY NIGHT SENSOR SWITCH INSTALLATION GUIDE:

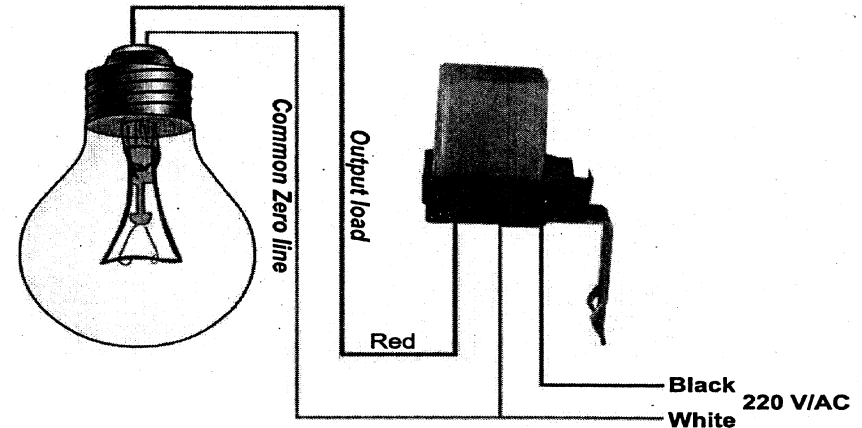

The Sensor switch can turn ON and OFF light automatically according to ambient light. In day Lamp connected to it automatically turns OFF and in night Lamp automatically turns ON. The Sensor Switch is waterproof and Temperature does not have any effect on it.

SPECIFICATION:

Power source: 220-240Volt AC Power Frequency: 50Hz
 Rated current: 7 Amp Ambient Light: <10LUX (ON)
 Working Temperature: -20° to +50°C >40LUX (OFF)

INSTALLATION:

Connect the Wire of the Switch as per the Diagram.

TEST:

- Switch ON the Power.
- Cover the Switch with dark cloth if you test the switch in Day time.
- When you remove the covered cloth, it makes lamp OFF automatically.

NOTE:

- There should be no obstruction in front of Sensor Switch effecting to accept natural light.
- In front of Sensor Switch, there should not be any swinging object.
